Board of Education

FROM LEFT TO RIGHT: William Hamilton, Jr.; Ronald Pennington; Dwight Blackburn, Chairman; Cotton Isaacs; L. R. Singleton. Not pictured: Farrell Richardson.

Mr. Singleton

We are particularly fortunate in our school to have a board which is interested in our affairs and progressive in their motivations. Moreover, we are signally favored in our superintendant, Mr. L. R. Singleton who has devoted years of his life in unstinted efforts for the betterment of our school facility and the enrichment of our curriculum and staff.

We, the yearbook staff, salute these devoted men!

CHARLES A. EDWARDS

We, the seniors of 1968-69, are proud that we have played a major role in the new Berea Community School system. Although we feel pride in being the first graduating class of the newly merged schools, we also feel regret because many memories and traditions have been left behind. The seniors from the Foundation school have lost their school colors of blue and white; their school mascot, the lion; and the privacy of a smaller school. Those from Berea High have lost their building where some students spent eleven years of their educational life. There have been hardships at times for all, but this year's class has been equal to the task. We hope we have been good leaders for those who will follow us at the new school in coming years. We are proud to have led the way!

Under the leadership of first-year coach Bill Walton, the Pirates visited the win column 14 times while going down to defeat 11 times. Several times this season, the Pirates blistered the nets at a 50% rate. Led by the 14-point average of guard Mike Baugh, the hardcourt men had three players with double figures averages. Larry French scored 12 points a game, and Jim Moore averaged 11. Mike Coyle pulled down over 10 rebounds a game to dominate the Pirates board game.

Five seniors will be lost this year to leave next year's coach a giant rebuilding job.

COMMUNITY EDUCATION AT BEREA

There's a new sense of community at Berea. The schools have joined forces and everybody is rooting for the same team.

Everybody is also cheering for better education.

As new buildings take shape, the challenge is to become education-centered. This means involving everybody—young and old—in a process of problem solving.

The idea is for each solution to help enrich community life.

The process is endless, but the first problem has already been solved because everybody is rooting for the same team, and we are enriched with a new sense of community.
